

# YOU SHOULD VOTE FOR ME!!!!!!111

This Senate race has 13 candidates and 13 seats so I'm trying very hard to campaign.

**I'm Daniel Yin, and I approve of this message.**

## Transparency

I promise to improve the transparency of Student Senate's functions. This includes updating the Initiatives page so you can actually tell what Student Senate even does, letting you know about things via Instagram and via mailing list before they happen, and identifying a solid material with refractive index close to that of air. I would also make the streams of consciousness of every senator available online via Google+, RSS, Twitter (paid), and carrier pigeon.

## The Fence

Student Government's policies govern the Fence, and yet Student Government has taken precious few steps to ensure its continuation as a way for students to freely express their ideas. I would simplify any situations with the Fence by establishing the Fence as a Micronation, abolishing all laws, and resolving conflicts at the fence by the only true fair justice system: ~~single combat rock-paper-scissors cutting the Fence in half authoritarian dictatorship~~ (to be determined at a later date)

## Finance

If you like free food, too bad! I will abolish free food during Senate Week and instead embezzle the money. Too bad! However, if you vote for me, expect kickbacks! You may be aware of an election rule:

Bribery is strictly prohibited:  
No individual may offer, lend, or give anything valued over \$25 to influence a voter's decision.

To get around this, I will only be giving you historical artifacts stolen from various museums (priceless).

## Free Food

After abolishing free food, I will immediately reestablish Senate Week Free Food. Although all the funds have been embezzled by malicious actors who could not be identified, there are sources of food on campus. I would repurpose CMU's several lawns into sustenance by feeding you grass. The Numbers from Numbers Garden will also be served for students to eat. Students will also be allowed to nibble at posters either as a sign of endorsement or to remove them from public view.

## News Ticker:

ands dead from banana peels BREAKING! Stunning outpour of support for Daniel Yin. When asked, students said: "Who?" "Take your script back." "Voter fraud is awesome"

## Miscellaneous Policies

- Apply for tax credits during Carnival week for constructing housing on Midway
- Invert the hours that the 5th Ave Commons are open (to 2-7AM every day)
- Annex Scottylabs
- Replace outdoor metal chairs that are unusable in winter with anti-homeless chairs made of barbed wire that are constantly on fire
- Increase the price of eggs
- Johnvertise
- Make every class an 8AM
- Glve Daniel Yin One ~~Million~~ Billion All the Money In The World
- Plant seed crystals in the ground to grow more crystals
- Capitalize all the letters in Capital Grains (currently only two)
- Renovate Gilbert Hall common areas
- Open alliance negotiations with the deer to defeat the rabbit rebellion
- Install more Hunt Libraries to cause more light pollution
- Resolve Pittsburgh being landlocked
- Add more typos to building inscriptions
- Rotate the football field again (twice) so it can make a full 360° rotation
- Ask AB to invite Hatsune Miku to campus
- Find the Northwest Passage
- Pass laws that make it legal to steal from museums
- Try to create Jurassic Park one more time
- Solve the mystery of why Tank the Roboceptionist becomes unresponsive
- Mount poster board material on that wall in Wean 5 that everyone uses as a poster board but is clearly just a painted wall (now filled with tack holes)
- Investigate how Grano is still open on Grubhub despite no longer existing
- Achieve parity with Pitt by making their campus dining plans only valid at two off-campus locations (Subway and Vocelli Pizza)
- Locate the CMU Pittsburgh Campus (where is it?)
- Improve the Student Senate voter turnout rate from 5% to 0.013% (me, so I can decide the entirety of the next government)
